

We're excited to be running our Caught on Camera project in the Bunyip State Park again this year! To kick off the monitoring season, you're invited to a [Community Day](#) on Saturday 2 August in Gembrook. Caught on Camera in Bunyip State Park has been a fantastic success over the past two years - our wonderful volunteers have worked hard and 'captured' valuable data including important images of species such as the endangered Southern Brown Bandicoot.

At the Community Day, we'll...

- Listen to a presentation on Bunyip State Park and all we've achieved in the Caught on Camera project so far.
- Newcomers and those wanting a refresher will be trained in setting up motion-sensing cameras, at the first monitoring locations.
- Enjoy a delicious lunch together - we'll bring the food!

It will be a great chance to meet friends, learn new skills and take a look at some of the amusing, charming and scientifically important images we have collected.

When: Saturday 2 August, 10am-3pm

Where: Gembrook CFA Station and Bunyip State Park. We will meet at Gembrook CFA Station, which is about 1 hrs drive south-east of Melbourne.

Why: Because we love the critters of the Bunyip and this will be a great chance to contribute to research into the impact of fire on our mammals.

Registration: Book your spot at the Community Day on [Eventbrite](#).

Or:

Email: christinec@vnpa.org.au

Phone: 03 9347 5188 (Thu/Fri)

After the Community Day you can join our Caught on Camera monitoring activities where we will collect and move the cameras to the next location. Activity dates will be on Saturdays 23 August, 13 September, 4 October, 25 October and 15 November.

I look forward to seeing you in the forest. Christine Connelly

NatureWatch / Community Projects Coordinator
